The following was discussed:

- Dr. Shank questioned why deed the land instead of giving them a right-of-way.
- Mr. Lewis responded the District can do a right-of-way in place of deeding the land. He had discussions with Mr. Cassel, and it is a small piece of property the District has never had a use for.

- Mr. Cassel stated it is a small piece of land off the south side of the ramp. It is 1 foot wide at one end and 15 feet wide on the other end. It was originally held to be able to run water lines further west, but this was prior to the development line being cutoff at the Sawgrass Expressway. The District does not have any reason to keep the land.
