Joseph A. Ladapo, MD, PhD
State Surgeon General

Vision: To be the Healthiest State in the Nation

August 12, 2022

Christian McShea, Chief Water Plant Operator
Coral Springs Improvement District Water System
10300 MW 11th Manor
Coral Springs, Florida 33071

Dear Christian:

The Florida Department of Health, Public Health Dental Program (Department) presents you with the 2019 Water Fluoridation Quality Award. The American Dental Association (ADA), Association of State and Territorial Dental Directors (ASTDD), and Centers for Disease Control and Prevention (CDC) jointly recognize states that uphold the quality of fluoridation. Each year the CDC recognizes the ability of fluoridating water systems. Water systems that monitor and maintain ideal fluoride levels for 12 months in a row receive this award.

Coral Springs maintained this level of quality with community water fluoridation. This means the benefits of this safe and effective preventive health measure remain available to the citizens in Coral Springs, Florida. The Department recognizes the value of prevention more than ever. Thank you for the role you play in helping to prevent a disease that affects children and adults. Good oral health remains key to overall health and well-being.

The Department recognizes the excellent work done by your local public water system. Please share this Water Fluoridation Quality Award with your community partners to show your high standards. Congratulations on this incredible achievement. Thank you for your part in providing safe and dependable drinking water. Providing this service makes your citizens healthier. If you have any questions about the award, please contact the Florida Department of Health.

Sincerely,

Catherine E. Bridges, DMD
