

Paver Rebate Program

CSID paver rebate program provides for 50 rebates annually, of two hundred- and fifty-dollar (\$250) each, as an incentive payment to residents who convert their driveways from asphalt or concrete to a paver type material. The rebates will be provided on a first come first served basis. Payments will be awarded upon confirmation by the District manager that the paver conversion has been completed and meets the eligibility criteria of this program.

Program Requirements:

The rebate will be granted for new projects when a 3rd party contractor installs pavers.

The driveway conversion to a paver type surface must be completed within the calendar year being claimed.

The resident must supply the job permit number issued by the City of Coral Springs.

Resident must submit the attached application to the District for payment. Before and after pictures must be included.

The payment eligibility will be decided by the closeout date of the city permit for incentive award to the first fifty (50) applicants.

Once we receive all necessary documentation and the application is approved, a rebate check for \$250 will be sent. CSID is sponsoring this (one-time only) rebate. Only one rebate is allowed per property.
